About Us

Our trainers have a vast experience of over 11 years in training various platforms and have a strong skillset in Business Intelligence tools. From conducting trainings for college fresher's, to customized on-site classes across the globe, they have mastered the art of teaching to all experience levels. Our standard curriculum can be covered in a flexible manner to ensure participants can learn at their own pace. And with such varied experience and implementations, our trainers can pepper the training with use cases from actual project scenarios. We believe that any tool adoption is best learnt through practical approach and hence our classes include hands-on learning sessions that cover wide range of scenarios.

ThoughtSpot (4 days)

Course description

This 4-day course covers the Fundamentals, Intermediate and Advanced topics in ThoughtSpot. The optimal way to learn how to implement ThoughtSpot is to start with a thorough training on the end user functionality of the platform before exploring the process of loading data into ThoughtSpot and optimizing it for the search experience. Through an understanding of the end user experience first you will have the appropriate context for understanding the various settings and best practices utilized during implementation.

Skills you gain

- Master Basic and Advanced Searches
- Working with Visualizations
- Saving Answers and interacting with various functionalities like drilling & filtering
- Pinboard Creation
- Advanced Calculations and Keywords
- SpotIQ Analysis
- Best Practice around Data Loading into ThoughtSpot
- Creating Schema and Loading Dataset
- Modelling and Optimizing Data
- Worksheet designing, Views Creation and Data Security

Certification Mapping

These 4 days of training cover material that helps prepare students to pass the ThoughtSpot Professional Certification & ThoughtSpot Data Expert Certification exams.

Topics covered

End User Functionality Training

Day 1: End User Essentials
End User Essentials is the foundation course designed to teach participants the core end user functionality of ThoughtSpot.

- Search & SearchIQ
- Answers & Pinboards
- Custom Visualizations
- Filters & Drilling
- ThoughtSpot Mobile

Day 2: Advanced End User
Go beyond the basics of the end user features covered in the ThoughtSpot End User Essentials course to discover the advanced analytic capabilities of the platform.

- Answer & Pinboard Creation
- Using SpotIQ
- Conditional Formatting
- Creating Formulas
- Uploading User Data

Topics covered
Data Expert Training

Day 3: Data Loading
This course focuses on the main technical topics and best practices around loading data into ThoughtSpot.

- Exploring Data Management
- Creating Worksheets
- Creating Formulas & Views
- Row Level Security
- Managing Experts
- Custom Calendars

Day 4: Making Data Searchable
Modelling and optimizing the loaded data for the ThoughtSpot search experience will be covered in detail in this course

- Exploring Data Management
- Creating Worksheets
- Creating Formulas & Views
- Row Level Security
- Managing Experts
- Custom Calendars

Here to Help your Every Training Need

Customized employee boot camps including training and assessment to quickly and efficiently ramp new team members. Our boot camp programs will reduce employee 'on-the-bench' duration.

Boot Camps

Effective delivery of unrivalled classroom experience directly at your home or office. The virtual training experience is equivalent to onsite classroom training without the travel and accommodation expense.

Virtual Classroom

Instructor-led public classes held across the globe, at NSS classroom facilities. In addition to being able to interact directly with the instructor, you also get a chance to meet and network with industry peers.

Public Classroom

Flexible and affordable onsite training solutions aimed at training a group of employees or launching a company-wide-training effort. We cater to delivering off-the shelf, slightly modified or fully customized trainings for your learning needs to produce immediate and measure results

Onsite Training

Training solutions that are flexible and tailored to your organization's needs conducted onsite at your location, or virtually to reduce cost and include students from multiple locations. We customize our agendas, formats and delivery methods to suit your needs.

Tailored Training

We design and develop custom, on-demand trainings that allow you to learn anytime, anywhere on your LMS. Multimedia presentation, instructor videos, interactive simulations and quiz section provide an enhanced learning experience.

E-learning and M-learning
